SERIES

Synopsis

BEVERLY HILLS IS THE MECCA OF PLASTIC SURGERY DR. BEN, DR. ROB & THEIR TEAM AT THE BEVERLY HILLS CENTRE ARE READY TO CHANGE SOME LIVES

For the first time, Dr. Ben & Dr. Rob are opening up their plastic surgery centre to the world, on a quest to share with viewers the life changing transformations that their patients experience when they go under the knife at The Beverly Hills Centre.

World renowned for the dramatic and astonishing physical transformations Dr. Ben & Dr. Rob have achieved for their clients, the doctors want to share the message that whilst it may seem like an easy option, plastic surgery can be very hard on the bodies, mind's and souls of their patients.

"We want to remove the stigma that surrounds plastic surgery and the insinuation that it is a quick and easy fix. Our patients are some of the bravest people we have ever met. They are people who have chosen to take control of their bodies and their emotions and make changes to themselves that they believe will help them to lead happier, more fulfilling lives and we are proud to be able to help them achieve their goals safely" said Dr. Ben.

DR. BEN, DR. ROB & THEIR TEAM ARE EXCITED TO GIVE VIEWERS A FRONT ROW SEAT TO WATCH THE LIFE CHANGING SURGERIES & EMOTIONAL JOURNEYS OF THEIR PATIENTS.

Each episode will focus on two patients journeys, from consultation to surgery, then recovery to their final reveal.

The mission of this series is to give viewers a 100% real, fly on the wall look at what goes on behind the curtain at one of the busiest & most successful Plastic Surgeries in California.

The laughter, the fear, the courage and the relief and excitement of the patients will be showcased each episode, taking viewers on an emotional rollercoaster ride.

Dr. Ben & Dr. Rob have hundreds of celebrities & socialites as clients, & whilst they enjoy helping those clients with their personal transformations, they are most passionate about helping clients who are really struggling with life due to birth defects, scars caused by injuries and those less fortunate via their pro bono programs.

In amongst watching these life changing surgeries, viewers will enjoy a heavy dose of drama as they fall in love with the team at the BHC! It is a high pressure workplace and sometimes this can lead to clashes.. of EPIC proportions!
